- Skilled in designing visually appealing user interfaces using Flutter's widget library and platform-specific designs for iOS and Android
- Expertise in integrating RESTful APIs and Firebase services for backend functionalities and real-time data synchronization on both iOS and Android.
- bility to implement platform-specific features using Flutter's platform channels and plugins for seamless integration with native code on iOS and Android.
- Expertise in integrating RESTful APIs and Firebase services for backend functionalities and real-time data synchronization on both iOS and Android

GrambunnyMerchant

App Store Link: GrambunnyMerchant on the App Store

Description: Developed and deployed a mobile commerce platform for merchants, facilitating streamlined inventory management, order processing, and customer engagement. Seamlessly integrated payment gateways and provided real-time analytics for informed decision-making. Ensured a user-friendly interface and robust performance across iOS devices. Received positive user feedback for enhancing business operations and boosting sales.

ROLM: Reusable Online Learning Materials

Google Play Store Link: ROLM on Google Play

Description: Spearheaded the development and launch of ROLM, an innovative platform offering reusable online learning materials. Implemented features for seamless content discovery, personalized learning paths, and collaborative learning experiences. Integrated interactive quizzes, assessments, and progress tracking to enhance engagement and knowledge retention. Received acclaim for intuitive design, robust performance, and impactful educational outcomes. Continuously iterated based on user feedback to deliver an exceptional learning experience.

HeyMobie Seller

Google Play Store Link: HeyMobie Seller on Google Play

Description: Conceptualized and developed HeyMobie Seller, a dynamic e-commerce platform empowering sellers to manage their online stores efficiently. Implemented features for inventory management, order processing, and customer engagement. Integrated secure payment gateways and real-time analytics for data-driven decision-making. Designed an intuitive user interface for seamless navigation and enhanced user experience. Received positive feedback for enhancing seller productivity and driving sales growth. Continuously iterated based on market trends and user insights to ensure platform relevance and competitiveness.

Touchdownline

Website Link: Touchdownline

Description: Contributed to the development and maintenance of Touchdownline, a comprehensive sports news and analysis website. Implemented features for real-time score updates, player statistics, and game highlights across multiple sports leagues. Designed user-friendly interfaces for easy navigation and engagement. Integrated social media sharing capabilities to enhance user interaction and content distribution. Collaborated with a multidisciplinary team to ensure timely updates and feature enhancements. Received positive feedback for providing valuable insights and coverage in the sports community.

Road N Stays - Hotel Booking

Google Play Store Link: Road N Stays on Google Play

Description: Developed and launched Road N Stays, a user-friendly mobile app facilitating seamless hotel bookings and travel accommodations. Implemented intuitive search functionalities for finding accommodations based on location, budget, and preferences. Integrated secure payment gateways and booking management features for a hassle-free experience. Designed a visually appealing interface for easy navigation and enhanced user engagement. Received positive user reviews for reliability, extensive hotel listings, and excellent customer service. Continuously updated and optimized the app to provide the best-in-class travel booking experience for users.
