Hello,
Greetings from **Votive Technologies!!**

We are an Indian based IT service company, **having 60+ technologies experts** under a roof. In our previous roles, we have accumulated **8+ years** of experience working with a diverse range of **technologies, including WordPress, PHP, Laravel, MVC, MySQL, Shopify, IOS, Android, Flutter, UX/UI, CI/CD, HTML, CSS, and JavaScript/jQuery, Mobile Application Development and Web Application Development.** This extensive background has equipped me with the skills needed to tackle the challenges of modern web development effectively. We have done **750+projects** so far.

Proficient in developing and maintaining web applications using the Laravel framework.
comprehensive understanding of PHP, MVC architecture, and MySQL, ensuring robust and scalable solutions.
Experience in e-commerce development with Shopify and expertise in front-end technologies like HTML, CSS, and JavaScript/jQuery.
#Strong commitment to delivering projects on time and exceeding client expectations.
Understanding of REST APIs, the document request model, and offline storage.
Knowledge of mobile app development best practices, ensuring the delivery of high-quality and user-friendly applications.
Proficient in JavaScript, TypeScript, or Dart programming languages, with a deep understanding of their nuances and best practices.
Native IOS and Android application development experience or flutter.

As a remote worker, We are well-versed in collaborative tools and communication platforms, ensuring seamless coordination with team members. Our goal is to leverage our technical proficiency and passion for web development to drive innovation and contribute to the continued success of Dynamic Team.
